WAR MEASURE IN CONGRESS

KUHIO ACCUSES FREAR

THE DELEGATE TELLS A KAU AUDIENCE HE DOES NOT THINK THE GOVERNOR IS SINCERE IN THE HOMESTEAD LAND POLICY—A LENGTHY SAN FRANCISCO INTERVIEW WITH THE GOVERNOR.

That Governor is not sincerely trying to carry out the land policy supposed to be set in motion by the recent special session of the legislature, is the remarkable charge stated to have been made by Delegate Kuhio during his trip on the island of Hawaii. This political bombshell was delivered during a meeting at Waiohine, as a result of a question put by a Hawaiian in the audience Kuhio was addressing. The Hilo Tribune tomorrow will publish an interview with the Prince in which he tells of the incident himself. In the course of the speech in Kau, a Hawaiian asked the Delegate if he thought Governor Frear was sincere in his homesteading land policy. "No, I do not think he is," is the startling answer as given in the interview. "Some years ago he promised to open some lands in this district of Kau for homesteads, but he is still considering."

DOYLE DONATES \$10 AND A ROAST

CALLS THE HAWAII COUNTY BOARD OF SUPERVISORS A BUNCH OF SAVAGES AND SAYS IT IS AN INSULT TO INTELLIGENCE TO HAVE TO WRITE THEM—\$10 FOR ROADS IN SOUTH HILO.

A bill of \$10, rendered by Chester Doyle to the Hawaii Board of Supervisors in the Parker ranch murder case last week was cut in half by the finance committee of the Board, and just before leaving the big island to visit Honolulu before returning to Hilo Doyle mailed the following letter to the Board:

"Hilo Hawaii Dec. 3, 1909.
Hon. N. G. Lyman, Chairman Finance Committee Board of Supervisors County of Hawaii and Gentlemen (?) of the Board.

"Dear Sirs—I have been informed by the auditor that your committee acting for the board, has decided upon paying me the sum of five dollars, for my services as Japanese interpreter in re the

case of the murder of a person at Mana Hawaii, in which case I rendered a bill approved by the coroner for ten dollars.

"I beg to call your attention to the fact as interpreter I was occupied two days in this case and that the standard rate is five dollars per day, and further that I made no charge for necessary transportation from Honolulu to Mana which should have been paid by the county. The five dollars you so generously allowed me for services worth twenty five I will not accept.

"The bill is still ten dollars; allow me to contribute this sum to the much needed repairing of the roads on your long suffering island.

"The case in which I acted as interpreter was probably one of murder in the first degree and my services were needed in the gravest possible emergency for the enforcement of the law, as it would have been quite impossible for the island police officers to have handled the case without a Japanese interpreter, and under the law an American citizen must have been employed if available.

"Permit me to congratulate the board on the spirit of economy shown in the attempted saving of the five dollars which really resulted in the saving of ten (for I could collect ten if I chose) and I hope the ten dollars will be large enough to fill some one of the many chuck holes in the roads of South Hilo over which I may have to travel in future and which are as much a disgrace to your honorable board as I consider your action to me in connection with this murder case.

"In conclusion allow me to say that I consider it almost an insult to my intelligence that I should take the time under the circumstances to write a communication on this subject to such a bunch of savages.

"Thanking you one and all for the grand opportunity to give ten dollars to road improvement in Hawaii, I beg to remain with profound respect,

"CHESTER A. DOYLE."

RAH, RAH, AMERICA! HAWAII, BANZAI!

America, as represented by Hawaii; and Japan, as represented by the Commerce Commissioner en route home from a tour of America's States, met this afternoon at 1 o'clock in the mauka pavilion of the roof garden of the Alexander Young Hotel for an al fresco lunch.

It was an enjoyable and significant occasion.

Distinguished Honolulu men and women mixed with the gentlemen and ladies of the Nippon party.

Necessarily, conversation was slack, but good feeling made up for what was lost in talk.

Acting Governor Mott-Smith toasted His Imperial Majesty, the Mikado. There were prolonged cheers and banzais. Then Baron Shibusawa, leader of the party, arose, making a few remarks.

Chiefly he said: "To us who have viewed the glories of the United States, this too brief glimpse of Hawaii is as the adding of the flowers to the work of a beautiful embroidery. Hawaii, to us, is the perfect finishing touch of your great United States. Gentlemen the President."

More banzais and cheers.

Then B. Doi, the well-known Osaka druggist, came to his feet and shouted:

Rah, rah, rah!
A-mer-i-ca!
Nippon! Nippon!
Ha-wa-ii!
Banzai!

This brought down the house. There were no set speeches, the time being too short.

Many prominent local people helped entertain the important visitors, for example: Lorrin Thurston, W. O. Smith, E. Tenney Peck and James F. Morgan.

The Baron and the Acting Governor held a table together.

At the doors stood guards in civilian clothes, chosen to protect Shibusawa, on advice from Washington and request of the Consul. A reception at the Moana is held this afternoon, and a visit to the Pali, if the weather permits.

During the luncheon, an excellent affair, one of the visitors inquired: "Why is it that you have no poi?" This was clearly an oversight.

Cooke, Limited, Buys Sachs Block

The fine Sachs Block at the corner of Fort and Beretania streets was this morning purchased by the trustees of C. M. Cooke, Limited, from N. S. Sachs for the sum of \$75,000.

It is understood that Cooke, Limited, bought the property purely as an investment, and that no changes will be made in its tenancy or otherwise. The N. S. Sachs Company, which leased the front ground premises from Mr. Sachs, will remain there and Mrs. Blaisdell will continue her hotel on the second and third floors.

The deal was put through by Frederick E. Steere, manager of the real estate department of the Henry Waterhouse Trust Company.

"The directors of C. M. Cooke, Limited, purchased the Sachs block as an investment," stated Clarence H. Cooke this morning. "It seemed to us to be a good purchase for the money. So far as I now know the business enterprises being conducted in the block will remain there."

The land occupied by the Sachs block formerly belonged to Bruce Waring & Company. Years ago there were a couple of lodging houses and a restaurant there. These gave way to the Waring Block, a single story, wooden building fronting on Beretania street. Mr. Sachs bought the site from C. S. Desky, successor to Bruce Waring & Company, and erected the building above referred to.

BRITISH SHIP ON THE REEF

The British ship Celtic Chief, Captain Jones, from Hamburg, with fertilizer consigned to the Hawaiian Fertilizer Company, is aground on the reef between Honolulu and Kailua harbors.

Shortly after 5 o'clock yesterday afternoon she arrived off port, with several other vessels, and was anxious to make the harbor before nightfall. This accounts for her coming dangerously close to the shore.

Not having an opportunity to enter the harbor before darkness she was obliged to remain outside. She case her mudhooks off Palawa, just northwestward of what is known as the "Mowera reef," where the S. S. Mowera, or "Weary Mar" went aground long ago, and early this morning she dragged her anchors and drifted to the coral bed where she is at present hard and fast.

The Inter-Island steamships Matsona Kea and Mikahala, the Matson Intrepid, and the Young Brothers launch tug Hukihuki are pulling on her for all they are worth, and during the morning they moved her twenty feet, so that there is hope of her finally being pulled off.

Heavily-laden, it is believed that she has burrowed a cradle for herself in the coral.

Hukihuki was the first to discover the Celtic Chief in the predicament and took it, and commenced to pull before 7 o'clock this morning.

Then the pilot, going out to the S. S. Chiyo Maru, noticed how dangerously close the ship was to the reef and a telephone message was sent to the tug Intrepid, with the result that the Intrepid went scouting to the rescue.

That was at 7 o'clock this morning and the Celtic Chief was grinding her steel bottom in the coral bed.

The sea was rough, but the Intrepid got out a stern line and soon was
